For Immediate Release...

Town of Berlin Announces Exciting Enhancements Coming to Stephen Decatur Park

Berlin, MD – The Town of Berlin is pleased to announce upcoming improvements to Stephen Decatur Park that will enhance visitor comfort and restore key recreational features for the community.

Construction of a new comfort station with permanent restroom facilities is expected to begin in the coming weeks. The structure will be located adjacent to the public parking lot on the right, near the playground area. While no roadway closures are anticipated, parking availability in this lot will be temporarily limited during construction. Visitors are encouraged to plan accordingly when visiting the park.

In addition to the comfort station, improvements to the playground area will also take place. Several pieces of playground equipment damaged during the most recent winter storm will be replaced as part of the park enhancements.

Although both projects are expected to be completed in a relatively short timeframe, the Town asks the public to remain outside designated work zones while construction and repairs are underway to ensure the safety of all park visitors.

The Town of Berlin appreciates the community's patience and cooperation as these improvements progress and looks forward to providing enhanced amenities for residents and visitors alike. For updates on this project and other Town initiatives, please visit the Town of Berlin's website or follow the Town's official social media channels.
